

International Multi-Track Conference on Sciences, Engineering and Technical Innovations: IMTC-15

Workshop by Mr. David Wittenberg

Topic: "How to make students industry ready"

*Renowned Management Guru and speaker **Mr. David Wittenberg** "Founder-University 4.0 Jasola, New Delhi" will conduct special workshop on "How to make students industry ready" in International Multi-Track Conference on Sciences, Engineering and Technical Innovations on 22 May, 2015 from 2:00 PM -3:00 PM. Work shop is focused on bridging the gap between the industry demand and the available skill set. The workshop is one step towards making students industry ready by educating them with the mandatory skills required in the industry. Improving our teaching techniques with innovative approaches will be helpful to make students industry/work-ready. Mr. David Wittenberg will share their perspectives, expertise and experience with audience about the theme of workshop.*

Objectives of "How to make students industry ready -workshop"

- To help the graduates identify and understand various employability skills and industry expectations.*
- Help the participants in understanding and learning strategies to develop these skills.*
- Help the participants develop an action plan to build the required skills.*
